EXPAND NETWORKS NAMED AS FINALIST FOR BEST OF INTEROP LAS VEGAS

WAN OPTIMIZATION LEADER'S LATEST ADVANCEMENTS IN VIRTUALIZATION  
IS RECOGNIZED BY INFORMATIONWEEK AND INTEROP

Interop Las Vegas 2009

ROSELAND, N.J.--(BUSINESS WIRE)-- Expand Networks,  
[www.expand.com](http://www.expand.com), the leader in optimizing WANs for branch office  
consolidation and virtualization, is pleased to announce that its  
Virtual Accelerator has been shortlisted as Best of Interop, Las  
Vegas 2009 Finalist in the Performance Optimization category.

Made up of award-winning editors and analysts from  
InformationWeek Analytics, the panel of judges selected the  
products they believe will have the greatest potential impact and  
advance business technology efficiencies.

Adam Davison, Corporate VP Sales and Marketing at Expand  
Networks comments, "Without doubt, the Interop awards are highly  
regarded in the industry and it's a fantastic achievement to be  
announced as finalist."

He continues, "WAN Optimization has become a critical enabler in  
today's consolidation drive and we're particularly pleased the  
judges recognized the innovation in our Virtual Accelerators. Only  
by being able to live in the virtual environment as well as

affic such as VDI and Server  
ons bring users into virtual  
d datacentre services and enjoy  
isation without the performance,  
user satisfaction or productivity sacrifices.”

Best of Interop recognizes some of the world's most innovative technologies across eight major categories. The winners will be announced at the Best of Interop awards on Tuesday, May 19th at Interop Las Vegas.

Efi Gatmor, Expand Network's CTO, will be addressing the audience at Interop on 19th May at 10.15am in a session titled 'The next evolutionary step in WAN Optimization'.

The presentation will delve further into Virtual WAN Optimization strategies, announcing how the latest technology innovations will radically advance the mobility, scalability, affordability and unique collaborative benefit of WAN Optimization technology.
